Art Unit: 3742

Claim Rejections - 35 USC § 112

Claims 1, 31, and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 13, "said substrate layer" lacks antecedent basis.

Both of claims 31 and 32 recite a "heating layer" and a "directly heatable layer," but it appears that the former should be a "coupling layer."

Claim Rejections - 35 USC § 102

Claims 31 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by US Pat. 3869596 (US'596).

Referring to Figs. 1 and 3, and col. 2, lines 40-46, US'596 discloses a cooking vessel 10 with a heating layer 24 and insulating layer 26 on its outer surface, and electrical contacts are inherently disclosed because the power cord 14 leads must be electrically connected to the heater by such contacts. Regarding the preamble of claim 31, "In a stove comprising a baking muffle," this is merely an intended use, and the cooking vessel, of the glass – ceramic, is of the type ordinarily used for cooking in an oven. Certainly the vessel, with cord detached, can be placed in the oven to keep it warm, thus meeting the claim.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-30 are allowed.
